

Dear Members,

Trade Monitoring Mechanism (TMM) is a bilateral institutional mechanism between the Department of Commerce, Government of India and its Brazilian counterpart. This came into being as a result of IBSA Summit that was held in Delhi during October, 2008. TMM aims to facilitate trade and to mutually work on removing obstacles such as operational bottlenecks, Non-Tariff Barriers, SPS, Anti-dumping among others.

The Ministry of Commerce has sought inputs that needs to be flagged/discussed during the upcoming meeting including issues related to Non-Tariff Barriers of trade among India and Brazil along with the background.

Therefore, members are requested to send in the issues related to NTB if any faced while exporting to Brazil or any Latin America and the Caribbean (LAC) Region. Please mention the name of the specific Country that the issue/challenge being faced by EOD 26/11/2022 on email id sakshi@iopepc.org to enable us to inform the concerned department in the Ministry of Commerce.

Regards,

Ramesh Kolath
