

Dear Members,

We are glad to inform you that **Shri B.V.R. Subrahmanyam** has taken charge as the **Commerce Secretary, Government of India**.

It is commendable to note that immediately on taking charge the Commerce Secretary in consultation with the stakeholders, has set an ambitious target for Indian exports in the current year 2021-22.

After analyzing past trends in exports, the changes that have taken place following the onset of Covid-19 and the stimulus measures and policy intervention by the Government, a two prolonged approach of having commodity-wise and country-wise targets has been devised for achieving enhanced growth in exports.

Accordingly a target of US\$ 400 Billion has been set for the year 2021-22.

The Government of India has set a target of US\$ 1,766 Million for the Oilseeds Sector.

The list of Country-wise export target for Oilseeds is attached herewith.

The Council would play a crucial role in promoting exports and supporting its member exporter's support in their marketing strategy, regularly interact with the Indian Missions abroad to keep abreast with the latest developments in the markets, identifying challenges and addressing them with necessary and timely interventions and extending support in exploring new markets while consolidating existing ones.

Considering the need of the hour, a lot needs to be done by the member exporters of the Council and become partners in the National endeavor to meet the export target set by the Ministry of Commerce, Government of India.

With Kind Regards

Suresh Ramrakhiani
(Chief Executive Officer)
