

Dear Member,

There is an urgent need by the groundnut producing state like Karnataka to spread awareness amongst farmers and traders to stop usage of chemical pesticides. Instead, use of biological pesticides should be promoted. In case the use of pesticides is not controlled, India will lose its position as one of the largest exporters of groundnut in the world to other countries.

In view of above Indian Oilseeds And Produce Export Promotion Council (IOPEPC) is organizing a Farmer Mela on **Sunday 12th February, 2023 at 11.00 A.M. at Chitradurga, Karnataka.** Venue details are as given below:

Near RTO office road
