

Dear Members,

The Registration Division of Food Safety Bureau of the GACC has informed the Mission that as per GACC regulations No. 248, enterprises are required to obtain approval for the corresponding HS code before shipping their food products. Since

Members are therefore requested to only ship their food product consignments on the second working day after obtaining GACC's approval for registration for the correct HS code. The correct HS code may be confirmed by them with the importer to avoid issues with their consignments.

With Regards,

Ramesh Kolath
